**REMANUFACTURED TRANSIT BUS**

# Remanufactured Transit Buses

Our team of experts bring each bus up to spec with today's demanding new standards, from drive train upgrades that meet today's stringent EPA or State and Local Emission standards to ADA compliant accessibility, to full Interior and Exterior rehabs to improve any fleet's curb appeal.

A completely remanufactured bus from Transit Sales International will save you hundreds of thousands of dollars while providing your customers a bus with the look, feel and performance of a new bus with today's technology seamlessly integrated.

**Front and Rear Bumpers -** Bumpers and wheel well flares are repaired to look like new.

**Power Steering -** The steering gear box is remanufactured and all moving and wear items of the steering system are replaced

**Engine Closure Doors -** Are remanufactured including gas struts, latches and hinges

**Differential -** The Differential is remanufactured to OEM specifications

**Steering Wheel and Column -** The steering column is completely remanufactured to OEM specifications

**Roof Escape Hatch and Ventilator** Seal and hardware to be replaced

Body Work is professionally performed and the buses have a new high luster paint job

Glazing - Windshields and passenger windows are new and graffiti free. Front and rear door glass are new and graffiti free

Entrance and Exit Doors - Doors are rebuilt including rebuilt motors, bearings and bushings

Batteries are new heavy duty transit cycle rated

The front and rear suspensions are completely remanufactured and all moving parts are new

Brakes Systems are completely remanufactured including new drums, linings, brake treadle valves, brake interlock valve cluster and relay valve

**Exterior Lighting -** All exterior lamps are to be replaced with new LED

**Engine and Transmission -** Remanufactured engines and transmissions, new radiator and CAC package and remanufactured engine components assure safe reliable operation as well as EPA emission compliance

**Seating -** New driver's seat features state of the art air suspension systems with multiple adjustments for optimum driver comfort.

**Wheelchair Ramp Overhaul -** Wheelchair lifts or ramps are completely remanufactured

**Exhaust System -** Entire exhaust system is replaced including a new Particulate Trap

**Destination Sign -** New state of the art LED sign systems including front, side and rear destination signs assure ADA compliance

**INTERIOR TRIM** - The interior of the vehicle is remanufactured, painted and looks and feels new. Floor covering is replaced with new flooring in modern designs and colors

**HEATING AND AIR CONDITIONING** - The A/C system is completely remanufactured including the compressor, blower motors, valves, relays and filters.

**PUBLIC ADDRESS SYSTEM** - Buses are equipped with fully functional PA systems with both internal and external speakers assuring ADA compliance

**ELECTRICAL CONTROL PANELS** - Electrical system is function tested and repaired to OEM standards

# Serving the Transit Industry for over seven decades

Our Value also includes the world's most diverse selection of pre-owned inventory

Our Headquarters is located on a state-of-the-art facility

## After-Sale Service, Training & Parts Support

TSI can provide hands on instruction for customer's mechanics in all aspects of our transit buses. All systems are covered including air brake, air suspension, electrical and drive train. We can also conduct training at customer's facilities including set-up of repair operations. Parts manuals are available for reference during future maintenance and repairs. Programs are set-up as part of the sales transaction and ensure success.

TSI and its affiliate company, Complete Coach Works, carry over \$10 million in parts inventory including replacement engines and transmissions. We have an extensive inventory of used bus parts from seats to exterior parts to replacement glass and everything in between. All are available through our parts control and reorder systems. We are committed to this after-sale support to ensure the success of our customer's transportation operations.
